

How to link your WorldFirst USD account with Paypal

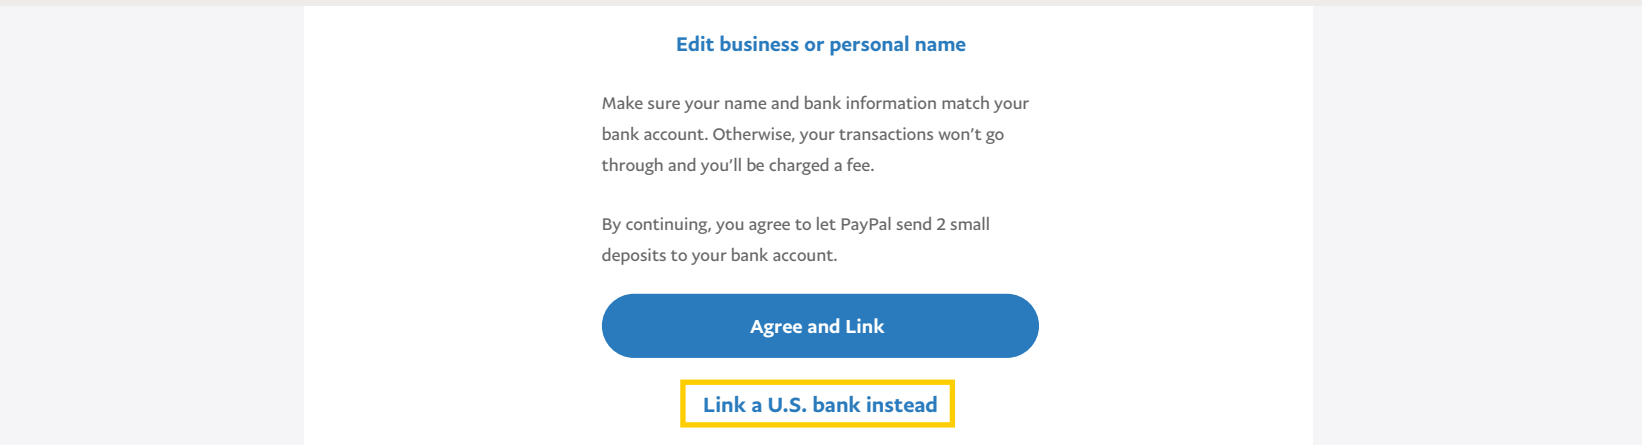

1 Select the **Balance** Tab on your Paypal Dashboard.

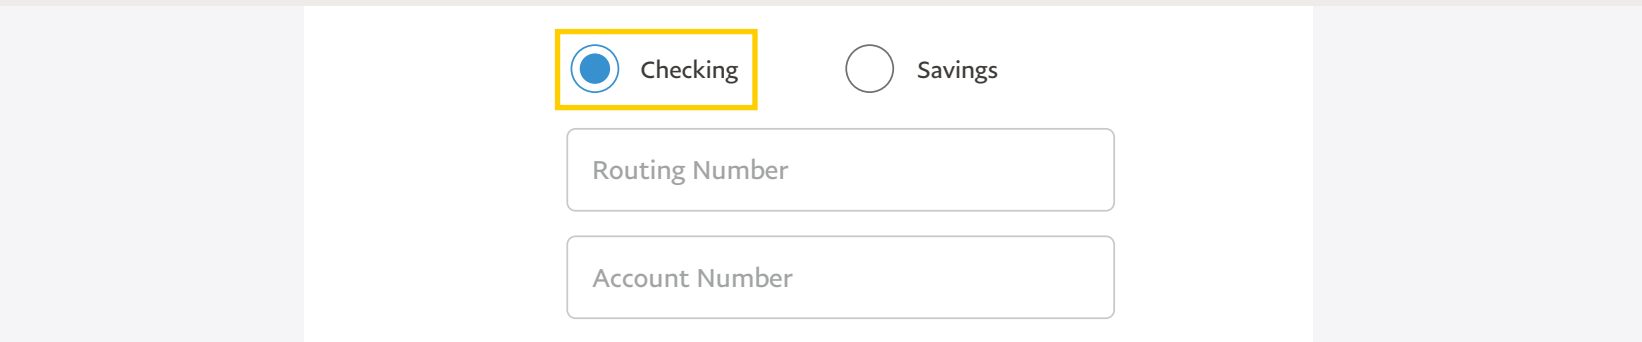

2 Click on **Link a Bank** under the bank column at the bottom.

3 Scroll to the bottom and click on **Link a U.S. bank instead**.

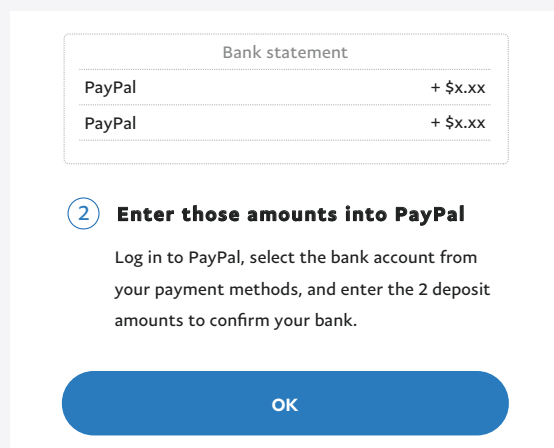

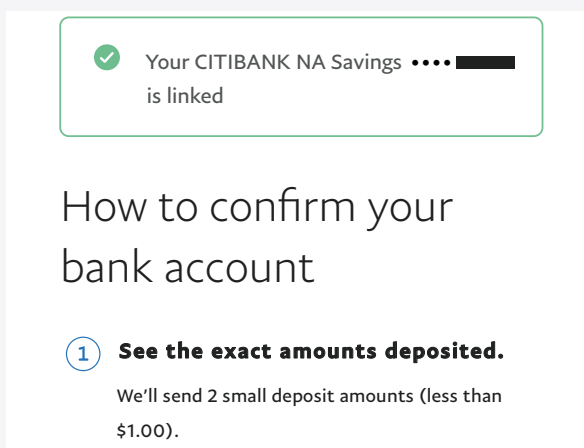

4 Select account type as **Checking**.
Enter the bank name, routing number and account number as per your allocated USD account details. Follow accordingly as per under your currency account.

5 Once the USD account has been added, Paypal might require confirmation of the account in form of 2 penny credits into your WorldFirst USD account which would usually take 1-3 working days.

You may either login to your WF online account to check the balances or let me know to keep a lookout. Otherwise, you may start withdrawing your USD funds back to your WorldFirst account already.
